Office Action Summary	Application No. 10/695,033	Applicant(s) SATARY-RAVABAKHSH, SHAHLA	
	Examiner Rachel A. Running	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3, 6-8, 11-15, and 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Keller (U.S. Patent No. 5,330,357). Keller discloses a dental floss for treatment of periodontitis that includes an elongated dental floss strand (27) ^{and} one or more medicinal members (29) having a medicine product that is configured for retaining and releasing the medicine product see Figure 5 (column 2, lines 42-50). Regarding claim 2, the medicine product is an antimicrobial agent (column 3, lines 22-25). Regarding claim 3, the antimicrobial agent is a tetracycline medicine (column 3, lines 25-30). Regarding claims 6, 11, 17, and 19, one or more of the medicinal members

Art Unit: 3732

comprises a spongy member (29) see Figure 5 (column 3, lines 10-20). Regarding claims 7, 12, 18, and 20, one or more medicinal members is an absorbent strip (25) (column 5, lines 5-20).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 4-5, 9-10, and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Keller. Keller discloses the claimed invention except for the antimicrobial agent being doxycycline hyclate gel. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the tetracycline medicine be doxycycline hyclate gel, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.
